If our technology is malfunctioning, or there is an issue with payment, I am one of the first people that my co-workers go to, on and off the clock.

VOLUNTEER EXPERIENCE OR LEADERSHIP

Captain for High School Bowling Team – During my senior season at Glenbard East High School, I was Captain of my bowling team. When one of my teammates were struggling during match play, or in practice, I would go out of my way to help that individual. Whether it was a ball change, recording a video, demonstrating drills, or just talking to them, I would do my best to guide them to success.

Captain for High School Baseball Team – While playing baseball for high school, I was captain for both my elite, and High School team. During practice I would run drills and warmups, and during games I would keep everyone updated on the situations and plays going on at that time.
